CASH ENVELOPE LEDGER

Monthly summary

One envelope of cash for each spending category. Every pound, dollar or euro gets a job before the month starts, and when an envelope is empty, that category is done until next month.

Income this month	Total put in envelopes	Income minus envelopes	
			= 0

FOLD

FOLD

1. Fill the envelopes. On payday, put each category's cash in its envelope and write it on the sheet's first line.

2. Spend from the envelope. Pay from it, then write the date, what it was for, and what is left.

3. Empty means stop. Move cash from another envelope if you must, and write that down on both sheets.

4. Close the month. Copy each envelope's totals here, then roll leftovers over or move them to savings.

Fold each sheet along the marks to fit a #10 envelope. Print a fresh set each month.
